SUMMARY

Full Stack Software Engineer with 5 years of experience building and maintaining production web applications, serverless backends, and optimization systems for retail and legal-tech platforms. Currently expanding into applied AI, having built LLM-powered tooling and earned Data Scientist and AI Associate credentials through NC State University's AI Academy. Strong background in cloud architecture (AWS), full-stack development (Python, Angular, React, Node.js), and mathematical optimization. Languages: English, Russian, Arabic, Ukrainian.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Cloud & Backend: AWS Lambda, Serverless Framework, AWS Cognito, AWS ECR, Docker, PostgreSQL, MySQL, MongoDB, GraphQL, REST APIs, Microservices

Frontend: Angular, React, React Native, Redux, Vue, ag-Grid Enterprise

AI / Data: Anthropic Claude API, LLM tool-calling / agentic workflows, Gurobi / mathematical optimization, pandas, scikit-learn

Other: Git, CI/CD, Flask, Django, Express, Node.js

EXPERIENCE

Senior Software Engineer

Mar 2024 – Present

Sizeo Inc.

Durham, NC (Hybrid)

- Serve as a full-stack engineer across Sizeo's retail optimization platform, owning both backend services and frontend features.
- Built the complete front-end for an internal performance analytics dashboard, delivered ahead of schedule with efficient bug resolution.
- Resolved dependency and code-scanning vulnerabilities (Dependabot, CodeQL) across Node.js and Python/serverless codebases to support SOC 2 compliance.
- Built and continuously improved internal deployment tooling, significantly speeding up and increasing the accuracy of client deployment preparation.
- Set up and configured new client development and production environments end-to-end.
- Developed an LLM-powered analytics assistant using the Anthropic Claude API with agentic tool-calling, plus supporting AI automation tooling.
- Rated "Highly Effective" in most recent performance review; recognized as ready to mentor junior engineers.

Software Engineer

Nov 2021 – Mar 2024

Quantworks Inc.

Chapel Hill, NC (Hybrid)

- Developed a web application with advanced data-grid components for retail size and inventory management, deployed on cloud infrastructure.
- Built and maintained a secure communication platform with segregated access controls, spanning backend APIs, a web portal, and a mobile client.
- Contributed to a workflow orchestration pipeline coordinating optimization jobs across microservices.

EDUCATION

Data Scientist Certificate – NC State University, AI Academy

Spring 2023

Artificial Intelligence Associate Certificate – NC State University, AI Academy

Fall 2023

Certificate, Full Stack Web Development – UNC Chapel Hill Coding Boot Camp

Raleigh, NC

24-week intensive program: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js, React

CTI 110, Web Programming and Database Foundations – Wake Tech
Bachelor of Medicine, Physician – Kharkov State Medical University
Advanced Course, Surgery – Academy of Medical Education

Raleigh, NC
Kharkov, Ukraine
Kharkov, Ukraine
